ATTACHMENT F: Certification of Conversion of Public Housing to Tenant- Based Assistance, Development – NM029

This is to certify that an assessment has been conducted on the development's operations as public housing; and

consideration has been given to the implications of converting the public housing to tenant- based assistance, and

Has determined that the cost, ability, to occupy the development and work ability of vouchers in the community makes the voluntary conversion inappropriate because removal of the developments would not meet the necessary conditions for voluntary conversions the following is documented on development NM029. The conversion would be more expensive than continuing to operate the development as public housing. The main reason for this conclusion is that a part of this development is elderly and part of this development is Family Housing.

The conclusion is that voluntary conversion of development NM029 is inappropriate.

This document is available for public review and the effort will be reported in the PHA Plan for Fiscal Year July 1, 2002 through July 1, 2003.
